

Apprentice—Fire Sprinkler Fitter

Legacy Fire Protection, Inc. is a full service fire protection company primarily servicing the Massachusetts and Connecticut markets. We are looking for highly motivated individuals that have interest in a specialized industry and a desire to develop a career in the fire protection trade. As a pathway to licensing, the registered sprinkler apprenticeship program offers a stable long-term career choice with consistent work and unlimited opportunity. LFP offers competitive pay, health benefits, retirement planning, paid time off, bonus opportunities, overtime, and paid holidays.

This is an excellent opportunity to apply your pipe fitting knowledge and skills with an opportunity to be part of an industry leading fire protection team.

REQUIREMENTS

- Must have some basic knowledge of pipefitting, and/or related plumbing regulations and fire protection codes and standards
- A strong interest in having the ability to understand and learn NFPA code compliant fire sprinkler installation through industry supported education and on the job training with experienced and licensed sprinkler fitters
- Must have the ability to understand construction blueprints and relate NFPA fire protection system designs with the field installation process
- Have the ability to work safely and gain a minimum of OSHA 10 safety certification
- Utilizes hand tools, electrical, pneumatic and hydraulic power tools
- Work well with other team members under the direction of a licensed sprinkler fitter
- Effective communication and negotiation with other construction trade personnel
- A valid state driver's license with acceptable driving record

BENEFITS

- Medical, long-term disability, 401K, company sponsored profit sharing, paid time off and bonus opportunities available
- Company sponsored industry training and NICET certifications available

COMPENSATION

Competitive base salary/commission depends on your level of experience, successful track record and education.

If you are interested in a career opportunity with growth potential, please contact our office or email your resume to contact@legacyfireprotection.com to schedule an interview.
